

EBPOM World Congress 2024

Workshops

Edwards Workshop

Advanced Haemodynamic Management Workshop

Delegates can expect to hear from world leading experts on the development of the latest technological advancements in hemodynamic monitoring and diagnostics.

Innovation through artificial intelligence continues to develop in all walks of life, including medicine and hemodynamic management. You will hear from a mix of academic clinical leaders, scientists and anaesthetists, who are existing users of this technology.

Workshop Speakers:

Professor Thomas Scheeren

Dr Feras Hatib

Dr John Whittle

Dr Simon Davies

Professor Monty Mythen

Professor Mike Grocott

Workshop Information

The session will run from 09:10 - 13:00, with a break at 10:50 - 11:20

Medtronic Workshop

EPBOM 2024 Nociception Workshop

The aim of this workshop is to educate delegates on optimizing care and avoiding overmedication by quantifying a patient's physiological pain response (nociception) during general anaesthesia. This enables the clinical team to provide personalised analgesia to each patient.

Workshop Agenda

Introduction to Nociception Level Technology
Case Study Review and Discussion
Hands on – VR session and NOL[®] Monitor

Workshop Speakers:

TBC

Workshop Information

There will be three sessions to pick from:

Session 1: 09.30 – 10.30

Session 2: 10.30 – 11.30

Session 3: 11.30 – 12.30

When booking please select one session.

POETTS CPET Workshop

Cardiopulmonary Exercise Testing To Direct Prehabilitation

In this workshop we will review how cardiopulmonary exercise testing can be used to objectively evaluate aerobic exercise capacity, identify modifiable pathology and evaluate risk.

We will then cover the principles of exercise prescription, focusing on the FITT (frequency, intensity, type, time, volume and progression) principles and how CPET can be used to prescribe an individualised exercise programme for patients before surgery as part of a prehabilitation service.

Workshop Lead:

Professor Denny Levett

Workshop Information

There will be two sessions to pick from when booking

Pick from:

Session 1: 09:00 - 10:45

Session 2: 11:00 - 12:45

Pre-reading:

None

Knowledge:

Please let us know your CPET experience from the following

- No experience
- Watched a few tests/see reports in clinical practice but not interpreted
- Experience interpreting tests
- Have experience reporting tests

You can add this into the additional information / order notes box on checkout
